VP -13 (MOVABLE POLES)

VP -13

Material Used	ISI Marked MS Pole
Pole Diameter	88mm
Thickness	3mm
Wheels Material	PU
Movable	Yes
Color	Customizable

VP-13

Introducing the VP-13 Movable Basketball Poles, expertly designed for durability and functionality. Crafted from high-quality MS ISI Mark tubing, these poles meet the highest industry standards. Perfect for schools, parks, and recreational facilities, they allow for easy relocation and enhance the basketball experience for players of all skill levels.

Specifications:

Outer Pole Dimensions: The outer pole boasts an impressive outer diameter of 88mm, providing excellent stability and support for various applications.

Wall Thickness: With a substantial wall thickness of 3mm, this structure is engineered to withstand heavy use and environmental stress, making it ideal for both recreational and professional settings

Portable Design: Easily relocated to different locations for versatile play

Non-Marking Wheels: Equipped with wheels for easy movement without damaging surfaces.

Professional Finish: Available in a variety of colors and finishes for a polished look.

Compatibility: Suitable for use on different surfaces, including grass, sand, and indoor courts.

VP -17 (FIXED POLES)

VP-17

Introducing the VP-17 Fixed Basketball Poles, built for exceptional strength and stability. Constructed from heavy-duty steel, these poles ensure long-lasting performance and compliance with the highest industry standards. Designed for permanent installation in schools, parks, and sports complexes, the VP-17 enhances the basketball experience by providing a reliable and secure structure for players of all skill levels.

Specifications:

- Outer Pole Dimensions:** The outer pole boasts an impressive outer diameter of 88mm, providing excellent stability and support for various applications.
- Wall Thickness:** With a substantial wall thickness of 3mm, this structure is engineered to withstand heavy use and environmental stress, making it ideal for both recreational and professional settings
- Professional Finish:** Available in a variety of colors and finishes for a polished look.
- Compatibility:** Suitable for use on different surfaces, including grass, sand, and indoor courts.

Referee Chair:

Referee Chair	
Material Used	ISI Marked MS Pole
Height	2.38 m
Width	0.77 m
Depth	0.95 m
Movable	Yes
